 - Presentation: Chung Supply Chain, LLC is an Ohio Company located here in Toledo and founded by owner Yun Chung.

Mr. Chung has a long and successful history of innovation in the food packaging industry. Recently, he developed a reusable supply chain system including plastic (fork lift) pallets, box containers, totes and shelving components. The plastic containers can stack during shipping and accommodate floriculture, bedding, and food products. When empty, the beauty of design allows for stacking for efficient back-haul transportation. Each box is RF1D-enabled which means it's trackable. Light weight, durable, point-of-sale ready, economical, and convenient- it is designed to minimize waste across the entire supply chain. Yun will be demonstrating some of his prototypes at our meeting.

Our next meeting is January 10
